

The Most Energy Efficient Cooling System Available

Advanced Air Handling and Refrigerated Cooling

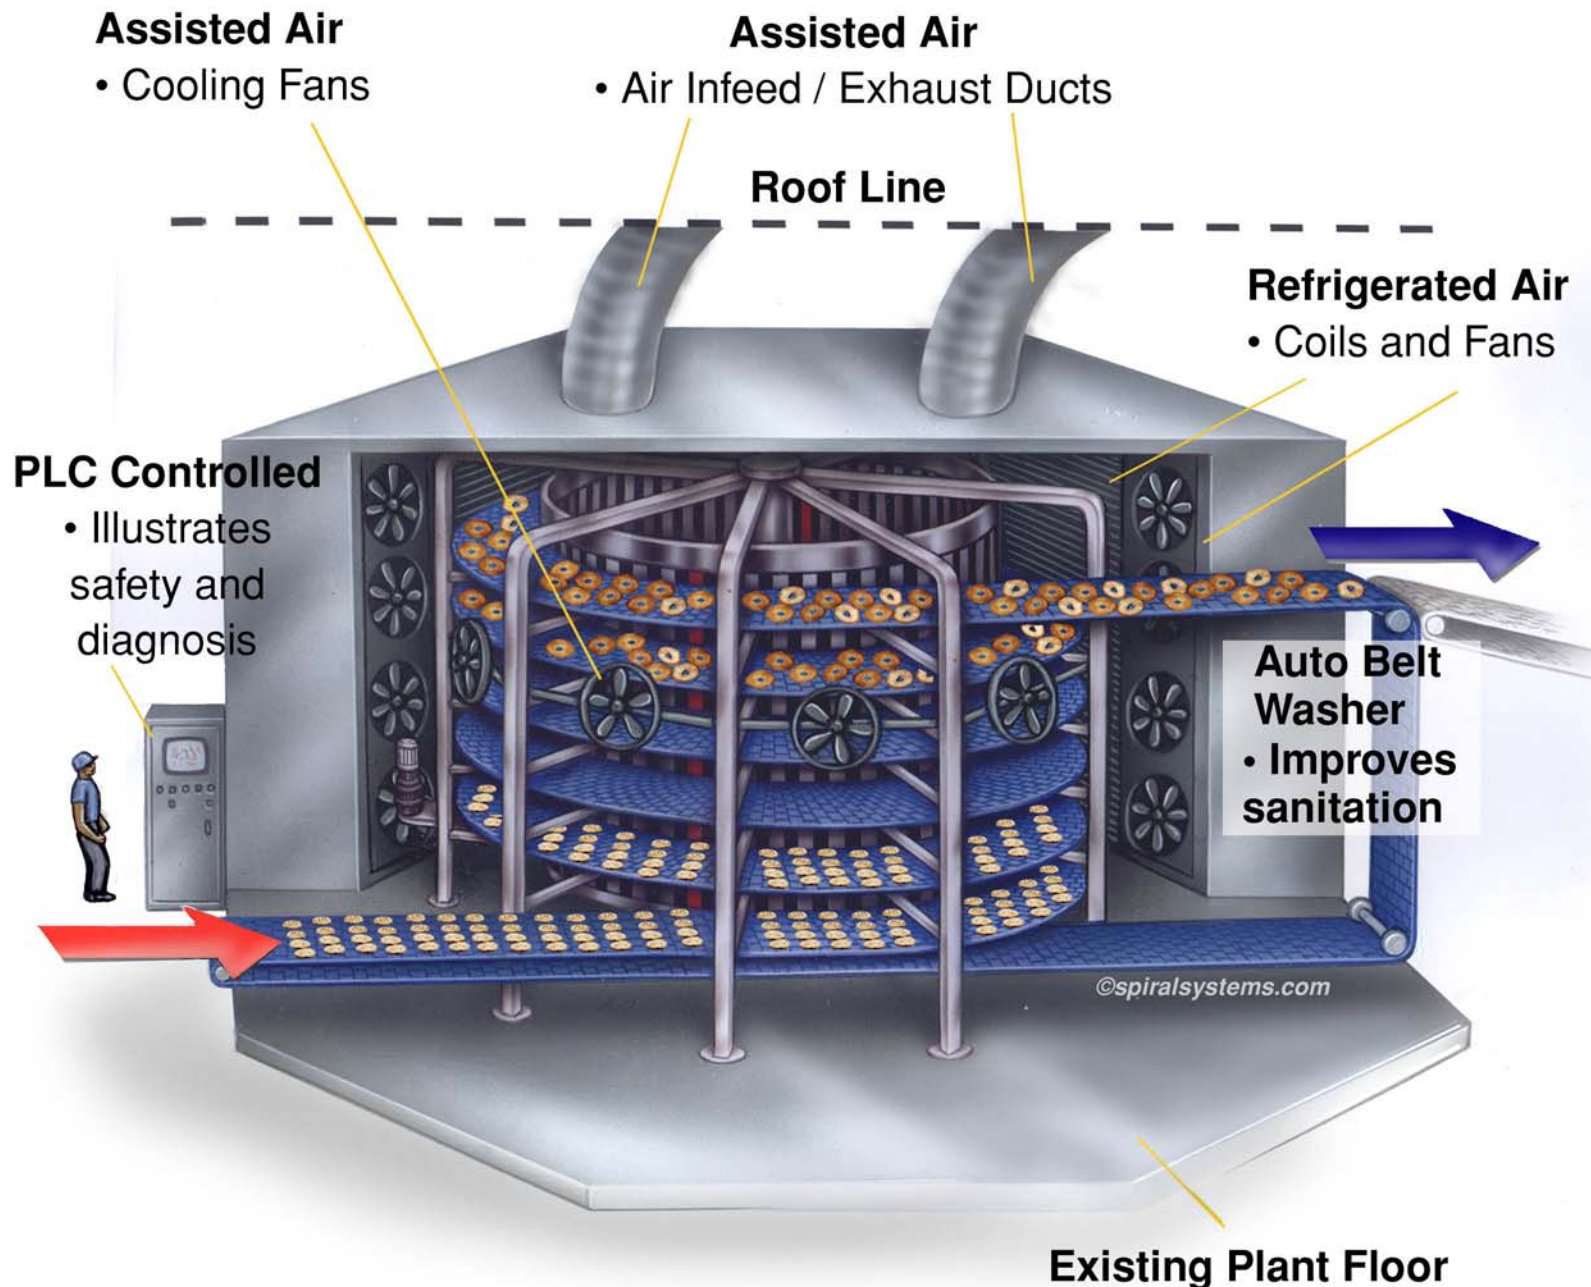

VERTACOOL

Enclosed Cooling System

**Three Cooling Options for
Year-round Energy Savings**

- Ambient • Assisted Air**
- Refrigerated Air**

Cool all hot products before packaging and freezing

Maximize Production Outputs
Lower Energy Consumption

Advanced Air Handling and Refrigerated Cooling

VERTACOOOL

Enclosed Cooling System

Gain Total Control on Process Temperatures

- Gives Maximum Flexibility of Methods of Cooling
- Adjust According to Year-Round Temperatures

Assisted Cooling Products

Refrigerated Cooling Products

Reduces Heat Loads on Freezers

- No Defrosting Necessary
- Provides Better Quality Products
