

Advanced Spiral Technology

VERTACOOL

Ambient Cooling System

- High Production Outputs
- Heavy Load Capabilities
- High Speed Performance

Cool all hot products up to 400°F

Heat Exhaust Systems

- Takes hot air out of the plant

High Temp. Performance

- Handles hot pans

Maximum open area

- Better sanitation

Belt width up to 60"

- Wider production line

Vertical Drive

- Easy maintenance

Auto Belt Washer

Latest Belt Technology

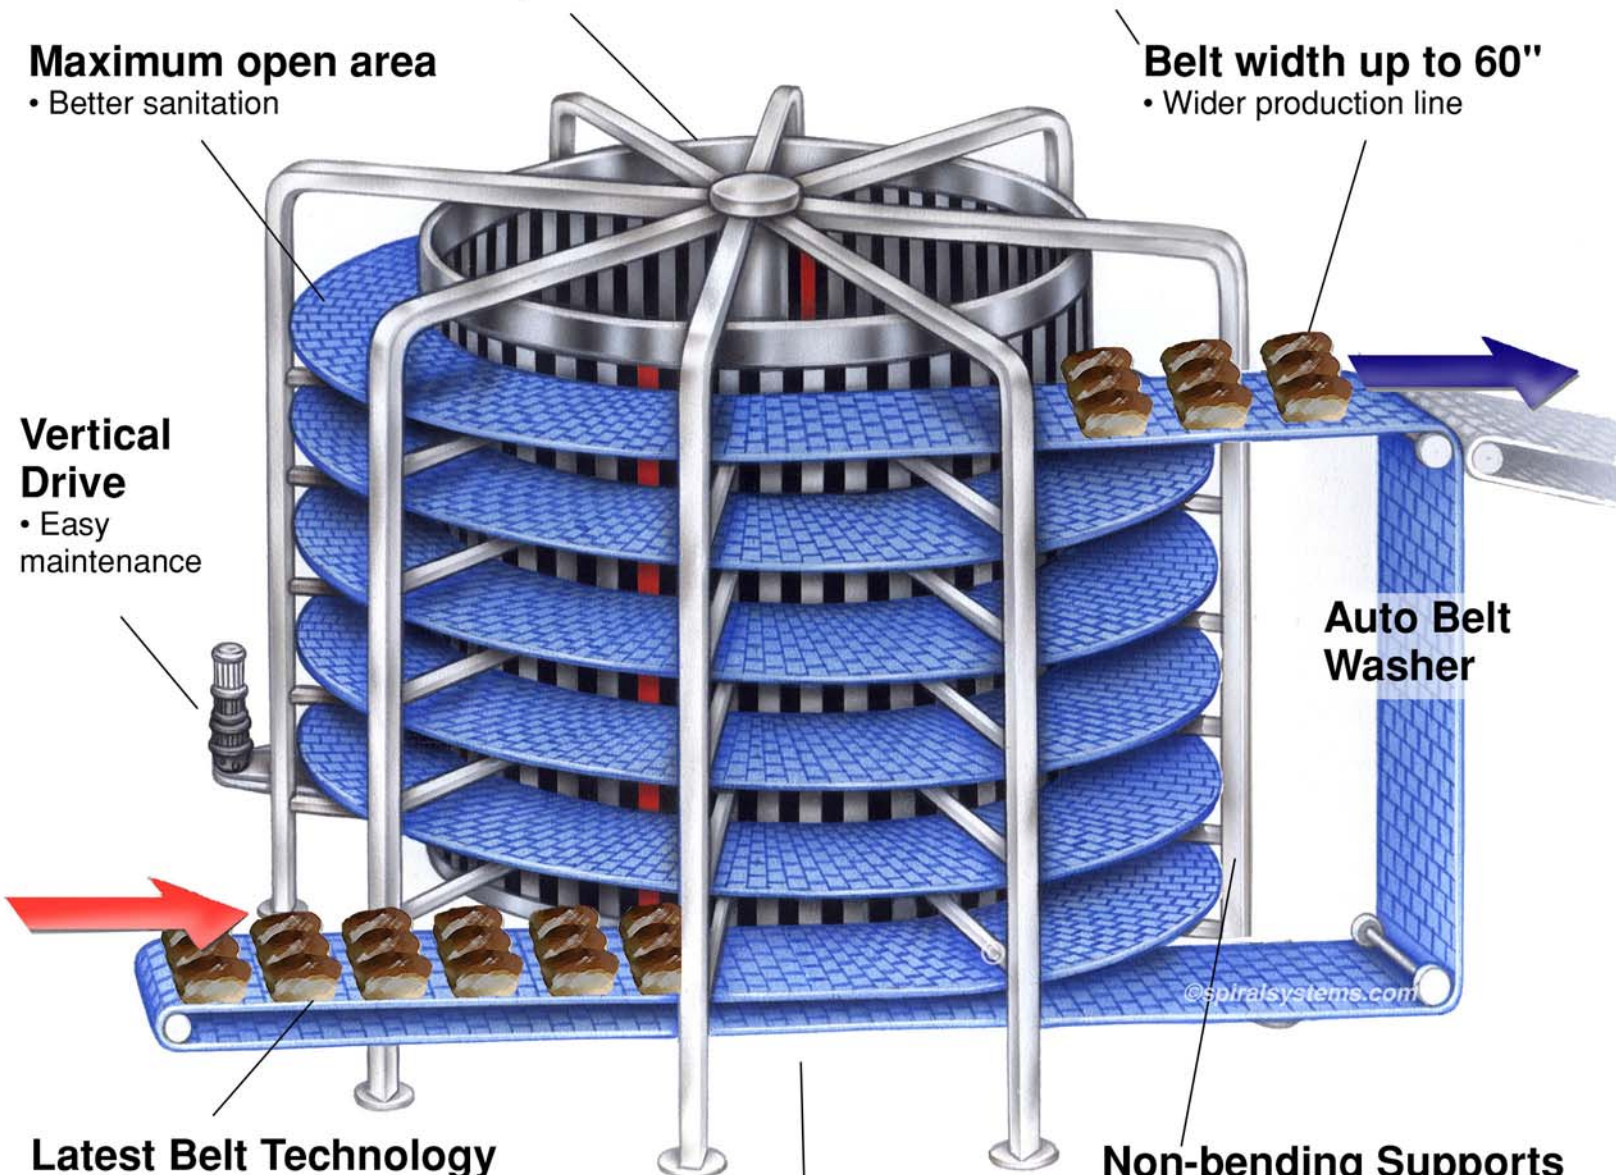

- Eliminates lubrication
- Increased belt speeds

Lowest Belt Tension

- Increase belt life

Non-bending Supports

- Handles high loads and wide belt widths

Maximize Your Floor Space
Increase Production Output
Improve Product Quality

Advanced Spiral Technology

VERTACOOOL
Ambient Cooling System

- Eliminates Racks - Reduces labor costs
- Allows for mezzanine packaging
- Provides better product orientation for packaging
- Installs in four days - easy to relocate

Maximize Your Flexibility

- Infeeds/discharge can be low or high
- Belt width can be up to 60"
- Speeds can be up to 300 fpm
